SENG 438
Software Testing, Reliability & Quality

Assignment 3

Assignment 3

- Code coverage
  - Part 1 – control flow coverage
  - Part 2 – data flow coverage
  - Part 3 – test suite development

Assignment 3 – Part 1

- Using one or multiple tools, calculate 3 control-flow coverage measures for your Assignment 2 test suites

Assignment 3 – Part 2

- For a given method calculate your data-flow coverage, manually

Assignment 3 – Part 3

- Set a goal like improving the coverages by 10%
- Write new tests to achieve that
- In cases you could not, discuss why it is not possible
  - Infeasible?
  - Works with JMock? Which configurations it works or does not?
  - Any other discussion

Activities

- 1st week: Familiarization with coverage concepts
- 1st week: Familiarization with coverage tools
- 2nd week: Coverage demo (two parts)
- 2nd week: Reporting the results
